

Ferrari Trento new wastewater treatment plant

Thanks to the 2014-2020 Rural Development Program of the Autonomous Province of Trento and Operation 4.2.1 "Support for investments in the processing, marketing, and/or development of agricultural products," which contributes to achieving the objectives of Focus Area 3A "Improving the integration of primary producers into the agri-food supply chain through quality schemes, the promotion of products in local markets, short supply chains, producer associations, and inter-professional organizations," it has been possible to introduce technical and functional upgrades to the wastewater treatment plant serving Cantine Ferrari.

This investment has made it possible to modernize the purification plant to support the company's growth.

The investment, amounting to euro 2,017,416.07, was funded with a contribution of euro 806,966.43 thanks to EAFRD funds (42.98%), the State (39.91%), and the Autonomous Province of Trento (17.11%).
